The Board approved the following recommendations made by the BWC: (i) Revision of the scope of the existing tender in order to

		include the structural strengthening and alterations for the structural safety also. The revised proposal should be presented for further necessary action. (ii) Construction of a new Administrative Building by according top priority. The earlier proposal in this regard may be revised both in terms of built up area/cost and location as per the current requirements. A proposal in this regard should be submitted immediately to the ministry for funding. (iii) Till the above materializes, IWD should undertake all necessary measures for the safety of the JT building namely propping, barricading, even part vacation after taking due technical advice. IWD should also carry out routine annual cleaning and other allied maintenance works frequently on the roof so that water doesn't accumulate.

 15 DEC 2023

Item No.68.21: To consider the proposal for creating an additional post of Institute Engineer.

RESOLUTION No. BG/47/2023: The Board considered the item and noted the background facts as following:

- i. Delay in timely delivery of Infrastructural development projects.
- ii. Pending matters related to HEFA funded projects and cost escalation.
- iii. Concerns about the Quality and timely delivery of maintenance works.
- iv. Delay in renovation work of James Thomason Building, including a recent incident of heavy water leakage in the Board Room, Director Office, Finance & Account Section, and a serious incident of roof collapse etc.

It was noted with concern that the poor health of the incumbent Institute Engineer is one of the main reasons leading to the above-mentioned situations. Institute Engineer is the most important position in the Institute works department and any inefficiency or inability at this level will undoubtedly cause Institute to suffer. Absence of personal supervision and effective engagements with his IWD team has been often noted to be missing due to incumbent IE's medical condition.

It was noted that the status of the Hon'ble Court order for status-quo in favor of the current incumbent be continued till the same is reviewed by the Court or any relief in this regard is otherwise granted.

In view of the above, the Board decided to create an additional post of Institute Engineer initially for three years against the overall sanctioned strength of non-teaching Group 'A' posts. The recruitment on this post be completed on urgent basis.
