

# A workshop on Indian codal provisions and standardization procedure

**October 7, 2025**  
**2:30 pm onwards**  
**Offline Mode**  
**Conference Room,**  
**Dept. of Earthquake Engineering**  
**IIT Roorkee**

## ABOUT THE WORKSHOP

The aim of the workshop is to provide participants with a comprehensive understanding of the latest Indian Standards, codes of practice, and their applications in engineering and construction. The workshop will highlight the significance of codal compliance in ensuring safety, reliability, and quality in projects, while also familiarizing participants with the process of standard formulation, revision, and adoption in India. Through expert-led sessions and interactive discussions, attendees will gain insights into the framework of Indian codal provisions, their alignment with international standards, and the role of standardization in promoting uniformity across industries. The workshop will benefit engineers, academicians, researchers, consultants, and industry professionals who seek to enhance their knowledge of regulatory guidelines and contribute effectively to standardization practices.

## KEY HIGHLIGHTS

- Technical Lectures
- Interactive Discussions
- Awareness about BIS Supported Activities
- Quiz

### QUIZ REGISTRATION

Physical Mode

## DISTINGUISHED GUESTS/SPEAKERS

**Prof. B. K. Maheshwari**  
**Head of Department**  
**Dept. Of Earthquake Engg.,**  
**IIT Roorkee.**

**Prof. Deepak Khare,**  
**Institute Coordinator-BIS,**  
**Dept. of WRDM**  
**IIT Roorkee.**

**Prof. Manish Shrikhande**  
**Dept. Of Earthquake Engg.**  
**IIT Roorkee.**

**Prof. Yogendra Singh**  
**Dept. Of Earthquake Engg.**  
**IIT Roorkee.**

**Prof. Ritesh Kumar**  
**Workshop Coordinator**  
**IIT Roorkee.**

**Prof. Brijesh Prasad**  
**Resource Person**  
**BIS**
