

Subjects Offered for Class XI

Science Stream

Students opting for the Science stream will study a core set of subjects designed to build a strong foundation in scientific and analytical thinking.

Compulsory Subjects:

- English
- Physics
- Chemistry

Optional Subjects (choose one from each category):

- **Category 1:** Mathematics **or** Biology
- **Category 2 (Vocational Subject):** Artificial Intelligence **or** Physical Education

This stream is ideal for students interested in pursuing careers in engineering, medicine, research, entrepreneurship or technology.

Commerce Stream

The Commerce stream equips students with knowledge and skills related to business, economics, and financial management, preparing them for careers in commerce, accounting, or entrepreneurship.

Compulsory Subjects:

- English
- Economics
- Business Studies
- Accountancy

Vocational Subject (choose one):

- Artificial Intelligence
- Physical Education

This stream is best suited for students aiming for careers in business management, finance, law, or accounting, and offers a practical understanding of how the commercial world operates.
